Papers/Posters at 76th GfE-Conference 2022 in Göttingen Proceedings – Call for abstracts, Registration of abstracts

Dear Madam or Sir,

the **76th GfE Annual Conference** will take place
from March 08 – 10, 2022
at Geisteswissenschaftliches Zentrum (GWZ)
of Georg-August-Universität Göttingen
Weender Str. / Kreuzberggring
37073 Göttingen

We would like to invite you to submit your abstract for a poster or an oral presentation at the GfE conference 2022 addressing any topic in the field of nutritional physiology and animal nutrition.

Abstracts can be submitted from **September 06 till October 11, 2021, 23:59 MET, exceptions from this deadline can't be made.**

All submitted abstracts will be reviewed. The chairman's decision on the acceptance of the proposals will be based upon the assessment results. In case of the need of revision or rejection of your proposal, we will inform you not later than mid of November 2021.

In principle, only original work that has been neither published nor presented elsewhere will be considered. If the results should be considered for yet another publication, this must be based on compelling reasons which have to be clearly stated in an accompanying letter sent to the GfE office in Frankfurt. Additionally, the original occasion of presentation and the respective reference must be declared. In that case, please include a copy of the abstract from the proceedings.

Submission of abstracts will be organized via the online platform that can be found at https://www.eventclass.org/contxt_gfe2022/, exclusively. Please register as an author and follow the instructions. **IMPORTANT:** Abstracts must be written and formatted in exact accordance with the attached guidelines. Your abstract text has to be filled into the defined fields or can be taken via copy-paste from .doc file or various text files into the online tool.

The total length of the text including the title, references, acknowledgements and details about the correspondence address is limited to 4,000 signs. Spreadsheets and images/graphics are not desired and will not be considered. Title, authors' names and information on corresponding institution have to be registered separately.

We kindly ask you to follow the system's instructions and fill in mandatory information completely!

You will be able to indicate the preferred section and presentation format (oral/poster) for the abstract. We will take your section preference into consideration when drawing up the conference programme. However, preferences cannot always be considered.

Abstracts should be submitted in English. **It is important that abstracts are in agreement with the enclosed guidelines** (please refer to “Guidelines for submitting of abstracts and presentations”). Applications not agreeing with the guidelines will be rejected.

Oral presentations at the conference by German speakers should be done in German language. However, for our international guests all speakers and presenters should prepare their visual presentation and posters in English.

Proceedings of former conferences (2021-2015) can be ordered via internet (<http://dlg-verlag.de/shop>), the proceedings are also available in bookshops.

In case of any questions you can reach us under +49 69 24788 320.

We are looking forward to your active participation.
With kind regards

sgd.
Prof. Dr. J.R. Aschenbach
Chairman
