Papers/Posters at 77th GfE-Conference 2023 in Göttingen Proceedings – Call for abstracts, submission of abstracts

Dear Madam or Sir,

the **77th GfE Annual Conference** will take place

from March 07 – 09, 2023

**at Geisteswissenschaftliches Zentrum (GWZ)
of Georg-August-Universität Göttingen
Weender Str. / Kreuzberggring
37073 Göttingen**

We would like to invite you to submit your abstract for a poster or an oral presentation at the GfE conference 2023 addressing any topic in the field of nutritional physiology and animal nutrition.

Abstracts can be submitted from **September 13 till October 11, 2022, 23:59 MET, exceptions from this deadline can't be made.**

Submission of abstracts will be organized exclusively via the online platform at https://eventclass.org/contxt_gfe2023/. Please register as an author and follow the instructions. If you had registered previously in 2021, please use the recovery function.

The total length of the text including title, references, acknowledgements and correspondence address is limited to about 4,000 characters (without spaces). Spreadsheets and images/graphs cannot be included.

The online system records author names and affiliations separately from the abstract text. We recommend to prepare the abstract as Word document. The different items can then be transferred easily into the required fields of the abstract management system via copy-paste.

You will be able to indicate the preferred section and presentation format (oral/poster) for the abstract. We will take your section preference into consideration when designing the conference programme. However, preferences cannot always be considered.

Abstracts should be submitted in English. **It is important that abstracts are in agreement with the enclosed guidelines** (please refer to "Guidelines for submitting of abstracts and presentations"). Submissions not complying with the guidelines will be rejected.

All submitted abstracts will be reviewed. The chairman's decision on the acceptance of presentations will be based upon the review results. Authors will be informed about revision requests or rejection of the submitted presentation not later than mid November 2022. Accepted abstracts will be published in the Proceedings.

Only original work that has been neither published nor presented elsewhere will be considered.

Oral presentations by German speakers should be held in German language. However, for our international guests, all speakers and presenters should prepare their visual presentation and posters in English.

In case of any questions, you can reach us under +49 69 24788 320.

We are looking forward to your active participation.
With kind regards

Prof. Dr. J.R. Aschenbach
Chairman

Dr. D. Kampf
Manager

Enclosures

Additional information:

This letter and the Guidelines for submitting of abstracts and presentations (German or English) can be found at <http://www.gfe-frankfurt.de/>.

Proceedings of former conferences (2022-2015) can be ordered via <http://dlg-verlag.de/shop>.
